

What you will find at Scenic Bluffs...

Our Mission: To provide accessible, patient centered primary health care focusing on disease prevention and education to improve the health and well-being of our communities.

Our Vision: Scenic Bluffs Community Health Centers is the provider of choice with a nationally recognized reputation for excellence in individual primary care and building healthy communities.

Interdisciplinary Practice

Scenic Bluffs operates 2 sites, one in Cashton and the other in Norwalk.

We provide primary medical, dental, behavioral health, chiropractic, and pharmacy services to over 6000 patients every year.

Modern Facilities and Equipment

Scenic Bluffs employs electronic health records and digital x-ray.

Qualification for Loan Repayment

Scenic Bluffs is a National Health Service Corps approved site, allowing qualified providers to apply for federal loan repayment.

Additionally, our site qualifies providers to apply to Wisconsin's Health Professions Loan Assistance Programs for additional loan repayment support.

A Diverse Patient Base

The medical patients served by Scenic Bluffs Community Health Centers mostly originate in the 3-county area surrounding Cashton (La Crosse, Monroe, and Vernon).

In 2009, 8% of our patients were best served in another language (Spanish) and 9% of our patients were Amish. 38% of our patients were under the age of 18 and 11% were age 60 and over.

About 29% of our patients were uninsured, 47% had Medicaid, 5% Medicare and 20% had private insurance.

Peer Relationships

Scenic Bluffs is located conveniently to offer multiple opportunities for referrals to specialists in other local health systems. Our providers develop referral relationships with numerous providers in the nearby communities of Viroqua, Sparta, Tomah, and La Crosse.

A Supportive and Professional Work Environment

At Scenic Bluffs, we have a high ratio of support staff to clinicians and offer 3 to 4 exam rooms per provider.

Call schedule is shared with all medical providers, including nurse practitioners and a physician assistant.

We value quality and will engage you in evaluating the quality of your care through monthly sharing of quality metrics.

Engagement with the Community

The Cashton and Norwalk communities are welcoming to new providers and have many organizations that Scenic Bluffs interacts with to support community wellness. Through these wellness initiatives, providers are encouraged to take advantage of opportunities to speak to local organizations and participate in community activities.
